

AFGHANISTAN IN 2019

A SURVEY OF THE AFGHAN PEOPLE

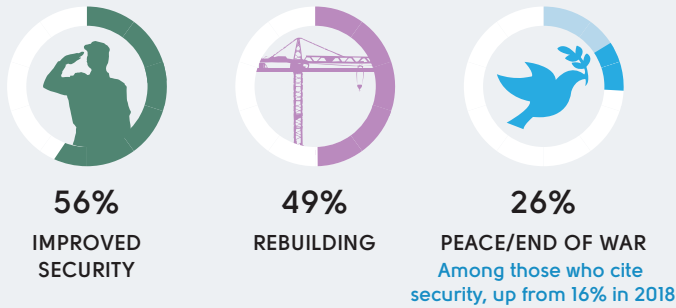

Now on its fifteenth edition, the Survey of the Afghan People presents a clear picture of the gains and gaps that Afghans perceive in a rapidly transforming nation. The Survey has gathered the views of more than 129,800 Afghans since 2004. In 2019, a national sample of 17,812 Afghan respondents were surveyed face-to-face across all 34 provinces. Given the importance of peace, elections, and reconciliation this year, new questions further explored Afghan attitudes towards these critical issues.
