Independent Auditor's Report

To the Board of Trustees The Asia Foundation San Francisco, California

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of The Asia Foundation (the Foundation), which comprise the statements of financial position as of September 30, 2019 and 2018, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

10900 NE 4th St Suite 1400 Bellevue WA 98004

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of September 30, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Effect of Adopting New Accounting Standard

As discussed in Note 2, the Foundation adopted the Financial Accounting Standards Board's Accounting Standards Update ("ASU") 2016-14, Not-for-Profit Entities (Topic 958) - Presentation of Financial Statements of Not-for-Profit Entities as of and for the year ended September 30, 2019. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The activity by line of business as presented on the statements of activities and changes in net assets on pages 4 and 5 is presented for purposes of additional analysis, rather than to present the results of activities of each individual line of business, and is not a required part of the financial statements. The accompanying schedule of expenditures of nonfederal bilateral and multilateral awards on pages 25 through 30 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2020, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

For the Years Ended September 30, 2019 and 2018
(Amounts are Reported in Thousands)

Note 1 - Organization

The Asia Foundation (the Foundation) is a public benefit corporation organized under the laws of the State of California. The Foundation's focus is on international development and is committed to improving lives across a dynamic and developing Asia. Informed by six decades of experience and deep local expertise, its programs address critical issues affecting Asia in the 21st century - governance and law, economic development, women's empowerment, environment and regional cooperation. In addition, its Books for Asia and professional exchange programs are among the ways it encourages Asia's continued development as a peaceful, just, and thriving region of the world. Headquartered in San Francisco, California, the Foundation works through a network of offices in Afghanistan, Bangladesh, Cambodia, China, India, Indonesia, Japan, Korea, Laos, Malaysia, Mongolia, Myanmar, Nepal, Pakistan, Philippines, Singapore, Sri Lanka, Thailand, Timor-Leste, Vietnam and Washington, D.C. Working with public and private partners, the Foundation receives funding from a diverse group of bilateral and multilateral development agencies, foundations, corporations and individuals.

The Foundation is funded by an annually approved appropriation from the U.S. Congress, competitively bid awards from governmental and multilateral development agencies, including the U.S. Agency for International Development, Australian Department of Foreign Affairs and Trade, United Kingdom's Department for International Development and by private foundations and corporations. The Foundation also receives gifts-in-kind, including books and software from major independent publishing houses, that the Foundation's Books for Asia program distributes each year to institutions throughout Asia.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The financial statements of the Foundation have been prepared on the accrual basis of accounting under accounting principles generally accepted in the United States of America (U.S. GAAP). The Foundation has presented an unclassified statement of financial position which sequences assets according to their nearness of conversion to cash and sequences liabilities according to the nearness of their maturity and resulting use of cash.

Net assets, revenue, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Foundation are classified and reported as follows:

Net Assets Without Donor Restrictions - Net assets that are not subject to donor-imposed stipulations.

<u>Net Assets With Donor Restrictions</u> - Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time. Other donor restrictions are perpetual in nature, where the donor has stipulated that funds be maintained in perpetuity. The investment income from these funds is available for current use.

Support and revenue are reported as increases in net assets without donor restrictions unless the use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Purpose and time restrictions expire when the donor-stipulated purpose has been fulfilled and/or the donor-stipulated time period has elapsed. Expirations of purpose or time restrictions result in the reclassification of net assets with donor restrictions to net assets without donor restrictions and are reported in the statements of activities and changes in net assets as net assets released from restrictions.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 2 - Continued

Cash and Cash Equivalents - For purposes of the statements of cash flows, the Foundation considers all highly liquid funds with an original maturity of three months or less, including those held in the Foundation's investment portfolio, to be cash equivalents.

Accounts Receivable - Accounts receivable consists of program and other receivables that are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to expense and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to program or other receivables.

Pledges Receivable - Pledges receivable, unconditional promises to give, that are expected to be collected within one year are recorded at net realizable value. Management provides for probable uncollectible amounts through a charge to contribution revenue and a credit to a valuation allowance based on management's assessment of individual balances. An allowance for doubtful accounts was deemed unnecessary at September 30, 2019 and 2018.

Books for Asia Inventory and Gifts-in-Kind Support - The Foundation recognizes gifts-in-kind consisting of books, software and related shipping services donated to the Foundation's Books for Asia program (the Program). These gifts-in-kind are recognized at fair value on the date received in the statements of activities and changes in net assets. The fair value of the gifts-in-kind support is determined based on the lowest published price, by title of book or software, obtained from independent third parties. The lowest published price is obtained in the principal market or, in the absence of a principal market, the most advantageous market, reflecting the highest and best use of each title. The principal market for these books is one which offers the greatest volume and level of activity for sales of each title. Program expense is recognized as the books are used by or distributed under the Program, at their carrying value as discussed above, on the date of transaction based on specific book or software title. Although it is the Foundation's policy to distribute gifts-in-kind as promptly as possible, the Foundation may hold some gifts-in-kind at year end. Books and software not yet distributed under the Program at year end are reported at the lower of fair value on the date received or net realizable value as Books for Asia inventory in the statements of financial position.

Other donated goods and services are recognized at fair value on the date received.

Gifts-in-kind revenue consisted of the following for the years ended September 30:

		In Tho	usands	<u> </u>
		2019		2018
Donated books	\$	7,479	\$	10,014
Donated shipping services		64		94
Other donated goods and services		23		
Total Gifts-in-Kind Support	<u>\$</u>	7,566	\$	10,108

For the year ended September 30, 2019, approximately 82% of gifts-in-kind revenue was from three donors. For the year ended September 30, 2018, approximately 73% of gifts-in-kind revenue was from three donors.

Notes to Financial Statements
For the Years Ended September 30, 2019 and 2018
(Amounts are Reported in Thousands)

Note 2 - Continued

Investments - Investments in equity securities with readily determinable market values and all debt securities are recorded at fair value. Investments in securities traded on organized securities exchanges are valued at the closing price on the last business day of the fiscal year. The fair value of other investments for which quoted prices are not available is determined by management with the assistance of third-party investment managers using methods it considers appropriate. Securities are generally held in custodial investment accounts administered by certain financial institutions.

Investment securities, in general, are exposed to various risks, including interest rate, credit and overall market volatility. Due to the level of risk associated with certain long-term investments, it is possible that changes in the values of these investments may occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

Investment return, including dividends, interest and realized and unrealized gains and losses, are reported in the statements of activities and changes in net assets. Where directed by the donor or grantor, interest earned on award advances is credited to a specific restricted fund for future use as specified in the award agreement. All other interest earned is credited to other fund balances with or without donor restrictions as appropriate.

Property and Equipment - The Foundation capitalizes property and equipment with a cost of \$5, or greater. Property and equipment are recorded at cost if purchased, or if donated, at fair value at the date of the gift. Depreciation is provided on the straight-line method over the estimated useful lives of the assets, which range from three to ten years, with the exception of leasehold improvements. Leasehold improvements are capitalized if they add to the value of the property or prolong its useful life. Leasehold improvements are amortized over the shorter of the life of the leasehold improvement or the lease term. Internally developed software with external costs exceeding \$5 are capitalized and depreciated over the software's estimated useful life, which is up to ten years.

Post-Retirement Benefit Obligation - The post-retirement benefit obligation considers payout patterns as well as investment returns on available assets prior to payment. The discount rate used to value the post-retirement benefit obligation is the risk-adjusted rate commensurate with the duration of anticipated payments. These inputs to the fair value estimate are classified as Level 2 in the fair value hierarchy.

Deferred Support - Deferred support represents the unearned portion of funds billed under exchange transactions and collected conditional contributions. Such amounts are recognized as support when earned as the related services are provided or when the donor's conditions are met.

Revenue Recognition - Support from exchange transactions is recognized when earned as the related services are provided. Payments under such transactions are generally received on a cost-reimbursement basis. As such, revenue recognized for awards from the U.S. Government and certain nongovernmental organizations may not reflect the full amount awarded.

Contributions are recognized as revenue when they are unconditionally received or promised. Unconditional pledges that are expected to be collected in future years are included in pledges receivable and discounted to present value based on estimated future cash flows. The discounts on those amounts are computed using appropriate interest rates applicable when the pledges were received.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 2 - Continued

Conditional contributions are recognized as revenue when the conditions upon which they depend have been substantially met. The Foundation has been named as beneficiary of certain revocable wills and trusts for which the amount and date of expected future contributions cannot be determined. Accordingly, these conditional pledges are not reflected in the accompanying financial statements.

Concentration of Credit Risk - Financial instruments that potentially subject the Foundation to concentrations of credit and market risk consist primarily of cash and cash equivalents, investments and accounts receivable. Cash and cash equivalents and investments held by financial institutions, at times, exceed Federal Deposit Insurance Corporation and Securities Investor Protection Corporation insured limits.

The Foundation operates in a number of foreign countries. As of September 30, 2019 and 2018, the Foundation held approximately \$2,659 and \$3,334 in foreign countries, of which \$1,205 and \$1,324 was in foreign currencies, respectively. Repatriation of funds restrictions may exist in a small number of foreign currency accounts. The Foundation has not experienced any losses in such accounts and closely monitors its cash and investments. Therefore, management believes the Foundation is not exposed to any significant credit risk on cash and cash equivalents or investments.

Receivables for awards and contracts from the U.S. Government represented 49% and 53% of the Foundation's total accounts receivable at September 30, 2019 and 2018, respectively. Revenue from awards and contracts from the U.S. Government provided 48% and 44% of the Foundation's total support for the years ended September 30, 2019 and 2018, respectively.

Included in the total receivables and revenue from the U.S. Government is an annually approved appropriation from the U.S. Congress. The receivable related to this appropriation represented 14% and 17% of the Foundation's total accounts receivable at September 30, 2019 and 2018, respectively. Revenue from this Congressional appropriation provided 18% of the Foundation's total support for the years ended September 30, 2019 and 2018, respectively.

Receivables for awards from one multilateral development agency represented 18% of the Foundation's total accounts receivable at September 30, 2019. Revenue from awards from one multilateral development agency provided 23% of the Foundation's total support for the year ended September 30, 2019. Receivables for awards from one multilateral development agency provided 23% of the Foundation's total accounts receivable at September 30, 2018. Revenue from awards from two multilateral development agencies provided 34% of the Foundation's total support for the year ended September 30, 2018.

Approximately 49% and 41% of pledges receivable were due from three donors at September 30, 2019 and 2018, respectively.

Functional Allocation of Expenses - The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Additionally, the Foundation incurs various fundraising expenses. Each organizational unit has a facilities cost pool. This cost pool is allocated to projects in proportion to aggregated time charges by staff assigned to that unit. Where there are multiple organizational units residing in an office location, a central facilities cost pool is utilized to collect costs and distribute to each of the residing unit's facilities cost pool based on each unit's staff count. In addition, program unit administrative expenses are accumulated in a cost pool. This cost pool is allocated in proportion to aggregated time charges by staff in that unit.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 2 - Continued

Tax Exempt Status - The Internal Revenue Service has determined that the Foundation is exempt from federal income taxes under provisions of Section 501(c)(3) of the Internal Revenue Code (IRC) and is classified as an organization that is not a private foundation under Section 501(a) of the IRC. The Foundation is also recognized by the California Franchise Tax Board as exempt in California under the California Revenue and Taxation Code Section 23701d and is, therefore, exempt from California income and franchise taxes on operations related to its exempt purpose and investment income. The Foundation files tax returns with the United States and various state, local and foreign governments. The Foundation may be subject to tax examinations by the tax authorities of these governments for the current year and certain prior years based on the applicable laws and regulations of each jurisdiction.

Foreign Currency Translation - Substantially all assets and liabilities of the Foundation that are held in foreign currencies are translated to U.S. dollars at year end exchange rates. Revenue, gains and other support, and expenses are translated at the average weekly exchange rates during the year. Gains and losses from foreign currency translation for the year are included in the statements of activities and changes in net assets. Net foreign currency translation gains (losses) totaled \$11 and (\$34), respectively, for the years ended September 30, 2019 and 2018.

Special Events - Special events held during the years ended September 30, 2019 and 2018 resulted in gross receipts of approximately \$958 and \$1,026, respectively, which are included in support from foundations, corporations and individuals on the statements of activities and changes in net assets. Estimated expenses for direct donor benefits from special events totaled \$114 and \$108 during the years ended September 30, 2019 and 2018, respectively, and are included in fundraising expense on the statements of activities and changes in net assets.

Use of Estimates - The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncement - For the year ended September 30, 2019, the Foundation adopted the Financial Accounting Standards Board's Accounting Standards Update (ASU) No. 2016-14 - Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities. This update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return between not-for-profit entities. The changes required by the update have been applied retrospectively to all periods presented except for the omission of prior year liquidity and availability of resource information as permitted by the ASU. A key change required by ASU 2016-14 is the net asset classes used in these financial statements. Amounts previously reported as unrestricted net assets are now reported as net assets without donor restrictions and amounts previously reported as temporarily and permanently restricted net assets are now reported as net assets with donor restrictions. The Foundation has also included information regarding its liquidity and availability of its financial assets (Note 13).

Subsequent Events - The Foundation has evaluated subsequent events through January 23, 2020, the date on which the financial statements were available to be issued.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 3 - Program Receivables

Program receivables, included in accounts receivable on the statements of financial position, represent amounts due under funding agreements with public and private entities for program services rendered or to be performed. All program receivables are deemed collectible at September 30, 2019 and 2018.

Program receivables were as follows at September 30:

		In Tho	usands	
	_	2019		2018
Billed Unbilled	\$	3,266 12,134	\$	4,721 6,089
Total Program Receivables	<u>\$</u>	15,400	\$	10,810

Note 4 - Pledges Receivable

Pledges receivable were due as follows at September 30:

	 In Tho	usands	
	2019		2018
Pledges due in less than one year Pledges due in two to five years	\$ 490 215	\$	706 329
Less present value discount (2.12% - 3.19%)	 705 (22)		1,035 (26)
Total Pledges Receivable	\$ 683	\$	1,009

Note 5 - Investments and Fair Value Measurements

U.S. GAAP provides a framework for measuring fair value. To increase consistency and comparability in fair value measurements, the framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants.

The framework uses a three-level valuation hierarchy based on observable and nonobservable inputs. Observable inputs consist of data obtained from independent sources. Nonobservable inputs reflect market assumptions. These two types of inputs are used to create the fair value hierarchy, giving preference to observable inputs.

Assets and liabilities classified as Level 1 have fair values based on unadjusted quoted market prices for identical instruments in active markets. Assets and liabilities classified as Level 2 have fair values based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, or model-derived valuations whose inputs are observable. Assets and liabilities classified as Level 3 have fair values based on value drivers that are unobservable.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 5 - Continued

The Foundation held no investments classified as Level 2 at September 30, 2019 and 2018.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at September 30, 2019 and 2018.

<u>Mutual Funds</u> - Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Foundation at year end.

Equity Securities - Valued at the closing price reported on the active market on which the securities are traded.

<u>Beneficial Interest in Charitable Remainder Trust</u> - Valued at the present value of estimated future cash flows to be received by the Foundation based on the value of trust assets, which approximates fair value.

Investments recorded at fair value on a recurring basis were as follows at September 30, 2019:

		In Th	nousands	
	Level 1		Level 3	Total
Mutual funds-

Property and Equipment, Net	\$	1,553	\$	1,691

As of September 30, 2019 and 2018, \$161 and \$130, respectively, of property and equipment was not yet placed in service and no depreciation or amortization had been recognized.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 7 - Pension Plans and Post-Retirement Benefits

The Foundation provides a defined contribution retirement plan for eligible U.S. payrolled employees paid by the Foundation as a cooperating institution in the Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF). The Foundation's policy is to fund accrued retirement costs. The retirement plan expense incurred by the Foundation related to TIAA/CREF totaled \$1,194 and \$1,164 for the years ended September 30, 2019 and 2018, respectively, and was based on a percentage of salary expense taking into account the start date of the employee.

The Foundation also provides various defined contribution retirement plans for its local employees at the Asian field offices. The plans vary by country with the majority of contributions based on a percentage of salary expense. The total contributions made by the Foundation to these plans totaled \$758 and \$713 for the years ended September 30, 2019 and 2018, respectively.

In addition to the defined contribution retirement plans, the Foundation provides certain health care and life insurance benefits to retired U.S. employees and their dependents (the Plan). The Plan was amended and curtailed in 2001 to exclude all current and future employees from coverage. The Foundation has the right to modify or terminate these benefits at its discretion.

The actuarial present value of benefit obligations, funded status and change in benefit obligations were as follows for the years ended September 30:

	In Thousands			
		2019		2018
Change in benefit obligation-				
Accumulated benefit obligation, beginning of year	\$	298	\$	367
Net periodic cost - interest		(41)		(42)
Benefits paid		(44)		(47)
Adjustment to unrestricted net assets		74		20
Accumulated benefit obligation, end of year		287		298
Change in plan assets-				
Fair value of plan assets, beginning of year				
Employer contributions		44		47
Benefits and expenses paid		(44)		(47)
Fair value of plan assets, end of year				
Accumulated Accrued Pension Liability, End of Year	\$	287	\$	298

Unrecognized net gain, included as a deduction from net assets without donor restrictions, for the years ended September 30, 2019 and 2018, totaled \$287 and \$361, respectively. The gains are being amortized over the average future lifetime of covered retirees.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 7 - Continued

Assumptions used in the accounting for the above Plan were as follows for the years ended September 30:

	2019	2018
Medical cost trends for-		
Medical benefits	5.5%	6.0%
Prescription drug coverage	6.0%	7.0%
Dental benefits	4.0%	4.0%
Subsequent year rate of decrease-		
Medical benefits	-0.5%	-0.5%
Prescription drug coverage	-1.0%	-1.0%
Weighted average discount rate used in determining the		
accumulated postretirement benefit obligation	2.37%	3.83%

The Foundation expects to make contributions to the Plan as benefit payments are required. Projected benefit payments are expected to be paid as follows:

For the Year Ending September 30,	In	Thousands
2020	\$	40
2021		38
2022		34
2023		31
2024		28
Succeeding 5 years		96

The Foundation also provides certain retirement benefits to local employees in its field offices and retired employees for which the Foundation has a financial liability. This liability totaled \$238 and \$260 at September 30, 2019 and 2018, respectively.

Note 8 - Net Assets Without Donor Restrictions

Net assets without donor restrictions consisted of the following at September 30:

	In Thousands			
		2019		2018
Undesignated	\$	4,123	\$	5,294
Board designated for long-term investment		13,333		13,008
Board designated for Indonesia operations		35		35
Total Net Assets Without Donor Restrictions	\$	17,491	\$	18,337

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 9 - Net Assets With Donor Restrictions

Net assets with donor restrictions were available for the following purposes at September 30:

	In Thousands			<u> </u>
		2019		2018
Subject to expenditure for specific purpose or passage of time-				
Books for Asia	\$	8,422	\$	8,187
Restricted purpose projects		2,556		2,307
Programs and scholarships		1,015		968
Beneficial interest in remainder trust		171		164
		12,164		11,626
Restricted in Perpetuity		2,972		2,972
Total Net Assets With Donor Restrictions	\$	15,136	\$	14,598

Net assets were released from restriction as program purposes were met as specified by donors as follows during the years ended September 30:

	In Thousands			
		2019		2018
Books for Asia	\$	7,308	\$	10,440
Restricted purpose projects		69		597
Programs and scholarships		20		73
Total Net Assets With Donor Restrictions Released	\$	7,397	\$	11,110

Note 10 - Endowments

The Foundation's net assets restricted in perpetuity consist of seven individual and one general donor-restricted endowment funds established for a variety of purposes. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 10 - Continued

The Uniform Prudent Management of Institutional Funds Act (UPMIFA) has been adopted by the State of California. The Board of Trustees of the Foundation has reviewed UPMIFA and, having considered its rights and obligations thereunder, has determined that it is desirable to preserve, on a long-term basis, the fair value of original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this determination, the Foundation classifies as net assets restricted in perpetuity within the net assets with donor restrictions classification (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in net assets restricted in perpetuity is classified in net assets with donor restrictions until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Foundation considers:

- The duration and preservation of the endowment fund;
- The purposes of the Foundation and the endowment fund;
- General economic conditions;
- The possible effect of inflation or deflation;
- The expected total return from income and the appreciation of investments;
- Other resources of the Foundation; and
- The investment policies of the Foundation.

Changes in donor-restricted endowment net assets were as follows for the years ended September 30:

	In Thousands					
		Subject to		Restricted in		
	App	opriation		Perpetuity		Total
Endowment net assets, October 1, 2017	\$	924	\$	2,972	\$	3,896
Endowment investment return, net		117				117
Appropriation of endowment for expenditure		(73)				(73)
Endowment Net Assets, September 30, 2018		968		2,972		3,940
Endowment investment return, net		67				
Appropriation of endowment for expenditure		(20)				(20)
Endowment Net Assets, September 30, 2019	\$	1,015	\$	2,972	\$	3,920

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 10 - Continued

Funds With Deficiencies - From time to time, the fair value of investments associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. There were no such deficiencies at September 30, 2019 and 2018.

Return Objectives and Risk Parameters - The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets included those assets of donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results while assuming a moderate level of investment risk. The Foundation currently expects its endowment funds, over time, to provide an average rate of return of approximately 5.50%. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives - To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to the Spending Policy - The Foundation has a policy of appropriating for distribution each year 5% of its perpetually restricted endowment fund's weighted-average fair value over the prior 20 quarters at June 30. The valuation takes place three months before the start of the next fiscal year. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation currently expects the current spending policy to allow its endowment to earn an average of 5.50%. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

The earnings on the donor-restricted endowments are to be used for general support to the Foundation as well as to support fellowships in conflict resolution, the Washington, D.C. Public Affairs program, advancing human rights, student internships and scholarships.

Note 11 - Commitments and Contingencies

The Foundation leases certain office, equipment and warehouse facilities under various operating leases. Future minimum lease payments for noncancelable operating leases are as follows:

For the Year Ending September 30,	In]	In Thousands	
2020	\$	1,189	
2021	·	1,104	
2022		1,067	
2023		573	
2024		123	
Thereafter		92	
		-	
Total	<u>\$</u>	4,148	

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 11 - Continued

Rental expense totaled \$2,690 and \$2,732 for the years ended September 30, 2019 and 2018, respectively. The Foundation has a lease with escalating rent payments with future annual minimum lease payments increasing from \$667 to \$804.

The Foundation is liable for accumulated termination rights of employees working overseas in certain countries. The Foundation's policy is to accrue termination rights when local law mandates that payment be made on separation irrespective of the specific circumstances. Accrued termination rights totaled \$3,431 and \$2,840 at September 30, 2019 and 2018, respectively.

Lawsuits and claims are filed from time to time against the Foundation in the ordinary course of operations. Management does not believe that any outstanding matters will have a material adverse impact on the financial statements. One outstanding matter was resolved subsequent to September 30, 2019 with no loss incurred by the Foundation.

Under the terms and conditions of award agreements with the Foundation's funders, support funds not spent in accordance with the intent of the agreements may be recovered by the funder. In the opinion of management, adequate provision has been made in the accompanying financial statements for any funds that may be recovered by or are not recoverable from the Foundation's funders.

The Foundation receives funds that are subject to audits by the funders. In the opinion of management, the Foundation's liability, if any, resulting from such claims will not materially affect the Foundation's financial position or its results of activities.

Commitments due by the Foundation under grant agreements to subrecipients for services not yet provided totaled \$14,548 and \$18,880 as of September 30, 2019 and 2018, respectively.

Note 12 - Related Party Transactions

Contributions received from the Foundation's Board of Trustees totaled \$736 and \$1,063 for the years ended September 30, 2019 and 2018, respectively.

Notes to Financial Statements For the Years Ended September 30, 2019 and 2018 (Amounts are Reported in Thousands)

Note 13 - Liquidity and Availability of Financial Assets

As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. The Foundation invests cash in excess of daily requirements in short-term investments. In general, funds subject to expenditure for specific purposes are available for use when received subject to restrictions placed by donors. Board designated funds may be made available for use at the Board's discretion.

The Foundation's financial assets available to meet general expenditures within one year are as follows at September 30, 2019:

	In Th	housands
Cash and cash equivalents Accounts receivable, net Pledges receivable, net Investments	\$	23,822 17,276 683 14,542
